Building Work Begins at Strawberry Hill House!

We are delighted to report that the tendering process for the development has now been completed. The Trustees have appointed Ellis Brothers, Eastbourne as the preferred contractor for the works. Work has now begun on site, and the foundations are being prepared. It is estimated that the building will be completed in Autumn 2017.

When completed, Strawberry Hill House will contain three modern one-bedroom apartments, seven two-bedroom apartments and a communal kitchen, lounge and orangery. Some apartments will have a patio or balcony. All apartments will include features to support an independent lifestyle. There will also be a secure, gated entrance, landscaped gardens and a mobility scooter storage area.

Brochures, information sheets, individual apartment plans and Price Lists are available upon request. If you would like any information about Strawberry Hill House, please let us know by using our contact details on the following page. Or come along to our Autumn Fayre to find out more!

We will be providing regular updates of the building work on our Facebook page and by email. To sign up for email updates, simply visit our website and enter your details.
